Social-Emotional Leadership Support

Vision

To support and embrace educators through inspiration, spiritual edification for liberation towards serving students with vigilance and excellence.

Mission

To equip, encourage and inspire educators with a supportive community of prayer, emotional, and social support to thrive in the most demanding learning environments.

The Issue

Every day teachers and staff are called to effectively meet the academic and social-emotional needs of each and every student. Teachers must possess and embrace a continuous skill set of love, joy, patience, diligence, discernment, forgiveness, justice. Yet, teachers receive little to no professional development that speaks to the reality of Divine internality, that reinforces the continuous skill sets to sustain a healthy proactive approach towards those they serve.

The Answer

As the expectations and demands put on teachers continue to grow, the support they receive must also grow to be more holistic. SEL provides a faith-based approach to professional development that addresses teachers' body, mind, and spirit. SEL applies biblical principles and educational research/best practices to fortify teachers spiritually and help maximize their academic and social-emotional impact on students.
